

**METHOD AND SYSTEM FOR VISUALIZATION OF RESULTS OF
FEATURE EXTRACTION FROM MOLECULAR ARRAY DATA**

Abstract Of The Disclosure

5

A method and system for visual display of feature extraction results to a user of a molecular array feature extraction software package. The feature extraction results are displayed as visual marks superimposed on an image of a molecular array, and numerical and textual feature extraction results for, and other information about, a particular feature may be displayed to a user when the user positions a mouse cursor over the feature in the displayed image. A user may direct display of visual mark for only statistically invalid features and feature backgrounds.
